

VOTE FOR NATURE NATUURLIJK.

**Your green voice
in the water authority.**

Water Natuurlijk
Amstel Gooi en Vecht

Clean Water? Increased Biodiversity? **NATUURLIJK!**

Did you receive a voting card?

On March 15 Water Authority elections will take place in the Netherlands. Non-Dutch residents are eligible to vote on the condition of EU membership or a valid residence permit.

Vote for Water Natuurlijk

Water Natuurlijk is a national party that champions the interests of nature. We do this in partnership with other governments and residents. We were founded by nature and recreation ngo's.

Water Natuurlijk stands for fighting the effects of climate change, restoring biodiversity and protecting nature. We work on improving our water quality, making sure it's free of drug residues, PFAS and microplastics. We value sustainability, a circular economy and leading by example.

Next to that we take care of water management. We work to prevent flooding, make sure sewage water gets purified and we take care of the water levels in streams, canals and ditches.

How do you vote?

At least two weeks before the elections, voters will receive a voting card for the water authority election. On Wednesday March 15, you should go to a polling station with your voting card. You will also need your passport, driving license or ID card.

Vote GREEN!
